2001 Ford Expedition Problems and Complaints - 7 Issues

Pull a spark plug wire off a spark plug. Insert the test spark plug and lay it on the intake or block where it will be grounded. Have the helper try to start the engine and watch the spark plug. A good spark indicates a problem internally in the engine. No spark means the ignition system is at fault.

How to Troubleshoot a Ford Expedition That Won't Start ...

Hey there. You should have the fuel pressure checked to see if the pressure does not drop after you turn off the vehicle. If it does, then have the pressure regulator replaced for not holding pressure. If the pressure holds but the pump intermittently does not come on, then try replacing the fuel pump relay in the fuse relay box in the engine compartment.
