Loose Gas Cap. A gas cap that isn't twisted on tight enough may cause the check engine light to illuminate, but it won't flash. Try tightening the gas cap and watch the light. In many cases, it will turn off because the problem has been corrected.

~~Why Is My Check Engine Light Flashing? | It Still Runs~~

The first thing you should do if the check engine light is flashing or is constant on your dashboard is to read the trouble code memory. When the engine light is lit up, and the engine control unit recognizes a problem with the engine, the engine control unit will store a trouble code in the memory. The code will be stored there for a long time, so you have the chance to read the trouble codes.
