The new edition of an essential reference book for everyone who works in aviation.

Title 14, Aeronautics and Space, Parts 200-1199

Special edition of the Federal Register, containing a codification of documents of general applicability and future effect ... with ancillaries.

Adhering to a reputation for excellence, this definitive manual of the latest civil aviation directives has been fully updated and indexed to clearly reflect all the changes in the Federal Aviation Regulations (FAR) and the Aeronautical Information Manual (AIM) over the past year. In addition to the regulations, AIM procedures, and redrawn AIM illustrations, this re-typeset edition also includes a study guide for specific pilot certifications and ratings, a pilot/controller glossary, the NASA Aviation Safety reporting form, important FAA contact information, and a free e-mail service that accounts for regulation changes throughout the publication year. The 2008 edition also includes a combined FAR/AIM index for easy reference.
