verging and can be effectively integrated. Focusing on the fundamental features of picoeconomics, expectancy theory, cumulative prospect theory, and need theory, we construct a temporal motivational theory (TMT). TMT appears consistent with the major findings from many other investigations, including psychobiology and behaviorism.

INTEGRATING THEORIES OF MOTIVATION

The present paper presents and describes a need satisfaction theory which is a molar and integrated formulation of the various self-referent constructs found in the literature. This theory, self theory, is based on the premise that human beings have a fundamental need to maintain or enhance the phenomenal self.

Self theory: An integrative theory of work motivation ...

Integrative Motivation. Some learners have a personal affinity for the people who speak a particular language. This is the second type of language learning motivation described by Gardner and Lambert and is called integrative motivation. Learners who are integratively motivated want to learn the language because they want to get to know the people who speak that language.

(PDF) An Integrated Control Theory Model of Work Motivation

Abstract A model that integrates several different motivational theories and previous control theory models is presented as a possible meta-theory to focus future theoretical and empirical efforts. The proposed model is dynamic, parsimonious, and focuses on self-regulation and the underlying cognitive mechanisms of motivation.

An Integrated Control Theory Model of Work Motivation ...

Temporal motivation theory (TMT) is an integrative motivational theory developed by Piers Steel and Cornelius J. König, the theory emphasizes time as a critical and motivational factor. The argument for a broad, integrative theory stems from the absence of a single theory that can address motivation in its entirety. Thus, it incorporates primary aspects of multiple major theories, including ...
