"This practical and helpful volume details how clinicians can work through various and common challenges inherent to psychotherapy, whether within the context of individual, marital, or group settings. Chapters draw upon wisdom gleaned from the author's 48 years as a practicing psychiatrist to address topics such as using countertransference for therapeutic purposes; resistance, especially when it needs to be the focus of the therapy; and a prioritization of exploration over explanation and favor working in the here-and-now. Along with theory and clinical observations, Dr. Gans offers a series of "Clinical Pearls," pithy comments that highlight different interventions to a wide range of clinical challenges. These include patient hostility, the abrupt termination of therapy, treating a couple that's lost compassionate neutrality, and more. In addition to offering advice and strategies for therapists, the book also addresses foundational concerns like the matter of fees in private practice and the virtue of moral courage on the part of the therapist. Written with clarity, heart, and an abundance of clinical wisdom, Challenging Moments in Psychotherapy is essential reading for all clinicians, teachers, and supervisors of psychotherapy"--

Time to go...I've taken enough of your time..... My life has been a good life. I think I handled everything that was thrown at me. I know others were involved in some of the trials and tribulations that came my way and I hope I handled them OK. If I didn't, I'm truly sorry. Growing up I thought my childhood was bad in some respects. But a couple of things have changed that idea. One was writing this story. The other was back into the 80's when my mother moved to Seattle and I listened to her talk to my daughters about my childhood. When I listened to her tell those stories, I realized I had built a wall around my upbringing and I was steadfast in thinking, "it wasn't as good as it could have been". Those stories made me realize, "I did have a good childhood", and just maybe..... I could have been a better son.
