In the 1960s the Air Force buried 1,000 ICBMs in pastures across the Great Plains to keep U.S. nuclear strategy out of view. As rural civilians of all political stripes found themselves living in the Soviet crosshairs, a proud Plains individualism gave way to an economic dependence on the military-industrial complex that still persists today.

Davie Jones—an ugly duckling growing up in small-town Mississippi with a mother who couldn't get any meaner—is positive her life couldn't be any worse. Just when she's resigned herself to her fate, she sees a movie that will change her life—Sixteen Candles. But in her case, life doesn't imitate art. Tormented in school and hopelessly in unrequited love with a handsome football player, Davie finds it bittersweet to dream of Molly Ringwald endings. When a cruel school prank goes too far, Davie leaves the life she knows and reinvents herself in the glittery world of Hollywood—as a beautiful and successful lounge singer. Just as she's about to ride off into the L.A. sunset, the past comes back with a vengeance, threatening to crush Davie's dreams—and break her heart again. With wholly original characters and a cinematic storyline, 32 Candles introduces Ernessa T. Carter, a new voice in fiction with smarts, attitude, and sassiness to spare.

"...profoundly moving..." -Publishers Weekly Nelson Mandela's two great-grandchildren ask their grandmother, Mandela's youngest daughter, 15 questions about their grandad – the global icon of peace and forgiveness who spent 27 years in prison. They learn that he was a freedom fighter who put down his weapons for the sake of peace, and who then became the President of South Africa and a Nobel Peace Prize-winner, and realise that they can continue his legacy in the world today. Seen through a child's perspective, and authored jointly by Nelson Mandela's great-grandchildren and daughter, this amazing story is told as never before to celebrate what would have been Nelson's Mandela 100th birthday.

This book explains how and why information literacy can help to foster critical thinking and discerning attitudes, enabling citizens to play an informed role in society and its democratic processes. In early 21st century societies, individuals and organisations are deluged with information, particularly online information. Much of this is useful, valuable or enriching. But a lot of it is of dubious quality and provenance, if not downright dangerous. Misinformation forms part of the mix. The ability to get the most out of the information flow, finding, interpreting and using it, and particularly developing a critical mindset towards it, requires skills, know-how, judgement and confidence – such is the premise of information literacy. This is true for many aspects of human endeavour, including education, work, health and self-enrichment. It is notably true also for acquiring an understanding of the wider world, for reaching informed views, for recognising bias and misinformation, and thereby for playing a part as active citizens, in democratic life and society. This ground-breaking and uniquely multi-disciplinary book explores how information literacy can contribute to fostering attitudes, habits and practices that underpin an informed citizenry. The 13 chapters each come from a particular perspective and are authored by international experts representing a range of disciplines: information literacy itself, but also political science, pedagogy, information science, psychology. Informed Societies: Why Information literacy matters for citizenship, participation and democracy covers: - why information literacy and informed citizens matter for healthy, democratic societies - information literacy's relationship with political science - information literacy's relationship with human rights - how information literacy can help foster citizenship, participation, empowerment and civic engagement in different contexts: school students, refugees, older people and in wider society - information literacy as a means to counter misinformation and fake news - the challenges of addressing information literacy as part of national public policy. The book will be essential reading for librarians and information professionals working in public libraries, schools, higher education institutions and public bodies; knowledge and information managers in all sectors and student of library and information science students, especially those at postgraduate/Masters level who are planning dissertations. Because of the topicality and political urgency of the issues covered, the book will also be of interest to students of political science, psychology, education and media studies/journalism; policy-makers in the public, commercial and not-for-profit sectors and politicians implications of information use and information/digital literacy.
