~~Statistics
Exam Questions
Probability Pack B
Questions And
Answers~~

To answer this one we need to go to the basic definition of a median.

Median is the value which has roughly half the values before it and half the values after.

The number of values less than 25 are $(36+54+69 =$

Download Ebook Basic

159) and the number of values greater than 30 are $(55 + 43 + 25 + 22 + 17 = 162)$. So the median should lie somewhere between 25 and 30.
