APOC Aviation acquires five CFM56-7B engines - LARA

The CFM56-7B is the exclusive engine for the Boeing Next-Generation single-aisle airliner. Delta TechOps has extensive experience servicing CFM56 models dating back to 1982.

CFM56-7B Engine - Delta TechOps | CFM56-7B

APOC Aviation has purchased five CFM56-7B engines, increasing the company's engine assets base. APOC sells, leases or exchanges engines and holds an inventory of engine components. The engines were purchased from a North American carrier in a "multi-million dollar" transaction. Three have already been delivered, while the other two will be integrated into APOC's portfolio soon. The ...

APOC Aviation boosts asset base with purchase of five ...

With more than 33,000 delivered to date, CFM56® engines mainly power single-aisle commercial jets from Airbus and Boeing. The CFM56®, developing 18,500 to 33,000 lb of thrust, sets the standard in this market. It owes its impressive success to exceptional performance and reliability, the result of the two partners' technical excellence.
