The Small Gas Engines Workbook includes a variety of questions, in various formats, to help reinforce the student's understanding of the material presented in the textbook chapters. Step-by-step jobs in the Workbook guide the students through important engine service procedures. The Workbook also includes sample Equipment & Engine Training Council (EETC) technician certification tests for the four-stroke and two-stroke areas of certification. These tests help the students prepare for EETC certification.

Reminiscences and miscellaneous writings and poems of the author.

DACUM or "Developing A CURRICULUM" is a relatively new and innovative approach to occupational analysis. This handbook was developed for use in workshops designed to prepare selected persons for the roles of DACUM facilitator and/or coordinator. The resulting occupational profile or DACUM chart serves as a research base around which new competency-based education or training programs can be developed or existing programs updated.
