A revolutionary approach to success and fulfillment—already being used by hundreds of thousands of individuals and organizations—now available for the first time in an accessible, practical book. The Personality Code clearly and persuasively demonstrates how personality determines why we do what we do and how we can maximize our strengths, work smarter with others, and profit from better relationships in our careers. Based on the IDISC(tm) Personality Profile—an updated and rigorously validated proprietary version of DISC, the world's most popular form of personality testing—the book provides insights and strategies for individuals and organizations that promote self-awareness and foster excellence. Readers will have free access to the online IDISC(tm) Personality Profile (each book will include a unique code number), which will reveal their own profiles from among the fourteen personality types that have been refined and defined through the author's six-year international study involving more than five hundred thousand participants. Travis Bradberry shows readers how to discern the fixed characteristics that explain three-quarters of human behavior. Most important, they will learn how to leverage these traits in order to capitalize on their strengths and sidestep weaknesses in themselves as well as in other people.

Sharing discoveries from a groundbreaking study that separated the leadership skills that get results from those that are inconsequential or harmful, Leadership 2.0 introduces a new paradigm of leadership. A passcode provides online access to the self-assessment edition of the bestselling 360 ° Refined™ leadership test. 360 ° Refined™ will show you where your leadership skills stand today and what you can do to begin maximizing them immediately. Your test results will: - Reveal your scores for all 22 core and adaptive leadership skills. - Reveal the specific behaviors responsible for your scores. - Pinpoint which of the book's 100+ leadership strategies will increase your leadership skills the most. In today's fast-paced world of competitive workplaces and turbulent economic conditions, each of us is searching for effective

tools that can help us adapt and strike out ahead of the pack.

Leadership 2.0 delivers a step-by-step program for increasing 22 core and adaptive leadership skills. Core leadership skills (those that get people into leadership positions) will sharpen your saw, and adaptive leadership skills (those that set great leaders apart) will make you into the leader you ' ve always wanted to be.

A monumentally devastating plague leaves only a few survivors who, while experiencing dreams of a battle between good and evil, move toward an actual confrontation as they migrate to Boulder, Colorado.

Unfortunately, we've all seen it happen. When faced with a problem, rather than working cooperatively to come up with a solution, your manager or colleagues come swooping in, squawking loudly, dump orders riddled with formulaic advice, and then take off, leaving you and everyone else to clean up the mess. Or—let's be honest: there may have been a time (or three) when you have been guilty of doing that very thing yourself. While this happens in every workplace worldwide more frequently than ever, it doesn't have to. Through the story of Charlie, a seagull who doesn't understand how his management actions are holding back his flock, Travis Bradberry, Ph.D., reveals the three virtues of great leadership that he has used to help thousands of people and organizations deal with seagull managers in the workplace and, just as important, to avoid being one themselves. Charlie the seagull is a well-intentioned manager who, when faced with new challenges after previously leading his flock to success, fails to understand how his management style is holding back, rather than helping, his team. Through our bird's-eye view of Charlie, overconfident Scott, quiet Maya, practical Yufan, and skinny, shy Alfred, we see them and the rest of the flock struggle to solve their problems while absorbing the three virtues of great leadership and teamwork along the way. This entertaining and illuminating fable will help make us all more productive, less prone to depositing messes on the heads of those around us, and more able to work effectively with

those who continue to squawk at us every day.

The Committee on Technology Insight-Gauge, Evaluate & Review set up by the NRC at the request of the Defense Intelligence Agency, has selected a number of emerging technologies to investigate for their potential threats to and opportunities for national security. This first study focused on emerging applications of nanophotonics, which is about the interaction of matter and light at the scale of the wavelength of the light. Manipulation of matter at that scale allows tailoring the optical properties to permit a wide-range of commercial and defense applications. This book presents a review of the nanoscale phenomena underpinning nanophotonics, an assessment of enabling technologies for developing new applications, an examination of potential military applications, and an assessment of foreign investment capabilities
