Re: Can I check a computer's  
hardware/specs thru Dell  
with a Service Tag #?

Solved: Can I check a  
computer's hardware/specs  
thru Dell ...

RE: Getting Dell Device  
Specs from Service Tag.  
Service tags do not list  
specs. The Original  
Configuration is a bunch of  
unrecognizable code numbers.  
Check your computer tag on  
the support page and look at  
components to see the list.

## Support | Dell US

Dell uses the service tag to  
check for device info such  
as specification and  
warranty status. Finding the  
service tag is not hard. The  
dell service tags are all  
unique so you will need to  
give the technical folks the  
correct one. This is  
important because the  
service tag identifies your  
computer and the hardware  
your computer shipped with.  
When ever your computer has  
problems, you need to have  
the service tag as customer

service will request for it.

## 5 Ways to find Dell service tag for your computer

Click Detect PC next to the "Enter a Dell Service Tag" field. Dell will now scan your PC. If a window appears displaying information about your PC, you already have SupportAssist. You should now see your 7-digit Service Tag near the top-right corner of the page. If SupportAssist is not found, you'll see "You need Support Assist" above the gray box.
