Earthworm, any one of more than 1,800 species of terrestrial worms of the class Oligochaeta (phylum Annelida) in particular, members of the genus Lumbricus. Seventeen native species and 13 introduced species (from Europe) occur in the eastern United States, *L. terrestris* being the most common.

Earthworm | annelid | Britannica

An earthworm dissection lab provides an economical and convenient opportunity for students to practice their dissection techniques before progressing to more complex specimens such as frogs or pigs. The dissection can be performed in about 30 minutes and requires only scissors, forceps, and dissecting pins. A hand lens may be helpful.
