Turbo – 282004A480. Intercooler – 281904A481. Some common problems found in the Hyundai iLoad D4CB 2.5 Litre diesel engine, Kia Sorento D4CB and Hyundai iMax D4CB engines. One of the most common problems results from leaking injectors which creates carbon that finds its way to the sump, not being able to drain properly the carbon turns into a soot like substance that gets trapped in the oil pick up.

~~Hyundai iLoad D4CB Diesel Engine and Turbo Problems~~  
Hyundai diesels earlier had a bad name, thanks to the numerous issues with the Accent's triple-cylinder diesel. But then, it was Hyundai's first CRDI engine, and also the first CRDI engine in the mass market (only car with common-rail diesels before that in India was the Mercedes E-Class). Tata's first common-rail diesel was plagued with issues too.

~~Long-term reliability of Hyundai's diesel engines – Team BHP~~  
The Hyundai CRDI engines in general are known for being comparatively more refined than the competition and with very less reported major issues. The engines have adequate low end torque and the fuel efficiency is also above average.
