Taking a multidisciplinary approach, the Handbook of Transportation Policy and Administration addresses the changes facing the field of transportation. Organized into five sections, it describes and analyzes major modes of transportation and components of the contemporary transportation system.

~~Handbook of Transportation Policy and Administration ...~~

In developing a transportation policy, it is very easy to lose sight of the overall objective - to get participants from A to B (and back to A) safely so they can play. To avoid creating an administrative hassle, it is important that transportation policies are clear and that procedures are simple and

~~Handbook of Transportation Policy and Administration ...~~

The goal of transport policy is to make effective decisions concerning the allocation of transport resources, including the management and regulation of existing transportation activities. Thus, transport policy can be concomitantly a public and private endeavor. Still, governments are often the most involved in the policy process since they either own or manage many
