This publication is a derived version of the International Classification of Functioning, Disability and Health (ICF, WHO, 2001) designed to record characteristics of the developing child and the influence of environments surrounding the child. This derived version of the ICF can be used by providers, consumers and all those concerned with the health, education, and well being of children and youth. It provides a common and universal language for clinical, public health, and research applications to facilitate the documentation and measurement of health and disability in child and youth populations.--Publisher's description.

Cardiac arrest can strike a seemingly healthy individual of any age, race, ethnicity, or gender at any time in any location, often without warning. Cardiac arrest is the third leading cause of death in the United States, following cancer and heart disease. Four out of five cardiac arrests occur in the home, and more than 90 percent of individuals with cardiac arrest die before reaching the hospital. First and foremost, cardiac arrest treatment is a community issue - local resources and personnel must provide appropriate, high-quality care to save the life of a community member. Time between onset of arrest and provision of care is fundamental, and shortening this time is one of the best ways to reduce the risk of death and disability from cardiac arrest. Specific actions can be implemented now to decrease this time, and recent advances in science could lead to new discoveries in the causes of, and treatments for, cardiac arrest. However, specific barriers must first be addressed. Strategies to Improve Cardiac Arrest Survival examines the complete system of response to cardiac arrest in the United States and identifies opportunities within existing and new treatments, strategies, and research that promise to improve the survival and recovery of patients. The recommendations of Strategies to Improve Cardiac Arrest Survival provide high-priority actions to advance the field as a whole. This report will help citizens, government agencies, and private industry to improve health outcomes from sudden cardiac arrest across the United States.

He took everything from me, now it's my turn and what my husband isn't expecting, is that I play on BLOOD I was his second choice, his biggest mistake. I never wanted things to turn out the way they did, but they did. Now my choice is limited. Join him, or end him. What will I choose? The clock is ticking, my friend's life is hanging on a thread and I, Aliyana Capello am the only one who can save him. But at what cost?? love my husband, but sometimes love is not enough, sometimes there are more important moves that need to be made. It is unfortunate that some would need to fall so I, the Queen of Killers can take my place and lead them all.Once all is done, I will need to confess. So I am going to start by saying forgive me.The final part of Secrets of the Famiglia, tells all.This is an enemy to lovers book, read at your own risk, no promises of a happy ending, but I guarantee you, this story will blow your mind.
