Budding entomologists and arachnologists will love this fun activity that invites them to learn about a few common insects and arachnids as they color them in. Children then select two bugs or spiders that they like, and draw and describe them in the spaces provided.

Designed for a first grade science curriculum, this worksheet helps children improve their observation skills, and inspires them to think about the beauty and complexity of arthropods.

Set out a couple pictures of spiders as well. If you can, suspend flying insects from the ceiling on strings. Step 2: Explain to students that they will be studying insects, bugs, and spiders, and that bugs are insects with mouthparts that pierce and suck. Step 3: If you have a live (or dead) insect, gather the students in a circle on the carpet. Distribute the magnifying glasses.
