CEFR levels- A1 – C1 The Big Picture reflects the key issues in the world today which are immediately relevant to the learners' worlds and experiences with striking real world images. These images provide a fresh, contemporary look and are at the centre of tasks, encouraging learners to work with and interpret them. Carefully structured discussion tasks encourage personalization, localization, and critical thinking, and complete functional language lessons develop conversation strategies and are applied to students' immediate world experience. Key Features Up-to-date, real-life, relevant contexts ground tasks and content in students' own world, allowing them to personalize and localize material. Language focus on real, useful language and high-frequency expressions, and are text, topic, and context driven. Functional Language and Final Task sections bring together the smaller pieces to help students see the big picture via practical, real-life tasks. A strong, systematic vocabulary building strand focuses on both lexical fields and vocabulary systems. Notice boxes draw attention to generative patterns and the living/changing nature of language. Avoidance/challenging of stereotypes – intercultural awareness foregrounded, e.g. inclusion of situations

where no native speakers are present (as models for tasks). A move away from traditional UK and USA settings to more global contexts. An emphasis on global English , with a wide variety of non-native and non-standard accents in the audio program. Inclusion of different text types from the ELT norm – new genres (e.g. blog posts), literary texts, signs, etc. Digital Features VLE-based tracking- teachers can see how well students have performed on interactive activities and whether they have completed them. Student-focused social networking features- students will be motivated to use English in a format that has established popularity. A live website- content will be added and updated regularly, which will encourage users to return frequently. User-friendly- teachers can register their students to use the website independently, or they can integrate the content of the website into their teaching.

Revised edition of the authors' Microeconomics, c2013.

Like a lens that brings the indistinct into focus, Parkin's Microeconomics introduces students to the art of seeing the invisible, teaching them interpret the story told by the economic indicators, uncover meaning hidden in the headlines, and gain a clear vision through economic analysis. An inspired teacher and crystal-clear writer, Michael Parkin has long been dedicated to helping students discover and apply the timeless

principles of economics. Parkin invites students to: / See and understand the issues of our time in the brightest light, with the most compelling examples and clearest explanation. / Visualize economic principles in action using a widely acclaimed approach to graphical analysis. / Gain perspective on current economic events and today's principal economic thinkers through a series of carefully crafted features.

The Tenth Edition of INTERMEDIATE MICROECONOMICS AND ITS APPLICATION by Walter Nicholson of Amherst College and Christopher Snyder of Dartmouth College provides an exceptionally clear and concise introduction to the economic study of markets, focusing on managerial and algebraic approaches. The authors have sought the best possible and relevant applications, filling this edition with strong examples and activities that allow students to learn by doing. Dr. Snyder, our new co-author on the text, lends his considerable expertise about Game Theory, Asymmetric Information, and Imperfect Markets to make this very successful text even more up-to-date and interesting.
