St Maximus the Confessor, the greatest of Byzantine theologians, lived through the most catastrophic period the Byzantine Empire was to experience before the Crusades. This book introduces the reader to the times and upheavals during which Maximus lived. It discusses his cosmic vision of humanity and the role of the church. The study makes available a selection of Maximus' theological treatises many of them translated for the first time. The translations are accompanied by a lucid and informed introduction.

¶ This is the book of the generation of heaven and earth, ¶ saith the Scripture, when all that is seen was finished, and each of the things that are betook itself to its own separate place, when the body of heaven compassed all things round, and those bodies which are heavy and of downward tendency, the earth and the water, holding each other in, took the middle place of the universe; while, as a sort of bond and stability for the things that were made, the Divine power and skill was implanted in the growth of things, guiding all things with the reins of a double operation (for it was by rest and motion that it devised the genesis of the things that were not, and the continuance of the things that are), driving around, about the heavy and changeless element contributed by the creation that does not move, as about some fixed path, the exceedingly rapid motion of the sphere, like a wheel, and preserving the indissolubility of both by their mutual action, as the circling substance by its rapid motion compresses the compact body of the earth round about, while that which is firm and unyielding, by reason of its unchanging fixedness, continually augments the whirling motion of those things which revolve round it, and intensity is produced in equal measure in each of the natures which thus differ in their operation, in the stationary nature, I mean, and in the mobile revolution; for neither is the earth shifted from its own base, nor does the heaven ever relax in its vehemence, or slacken its motion.

This book is a printed edition of the Special Issue "Inward Being and Outward Identity: The Orthodox Churches in the 21st Century" that was published in Religions

Gregory Palamas (1296-1359)-monk, archbishop and theologian-was a major figure in 14th-century Orthodox Byzantium. This, his greatest work, presents a defense in support of the monastic groups known as the "hesychasts," the originators of the Jesus Prayer.

This book explores the deep and abiding human need for contemplation, for coming to terms with and standing in awe of the nature and character of the God revealed in the Scriptures. When so much is wrong in the world, when our lives are troubled by so many threats, both real and imagined, we must learn to look to God and to see all things, including ourselves, in the light of who he is. A life of faithful contemplation begins to free us from the bad desires, false expectations, and corrupting illusions that bind us against our will and keep us from the fullness promised in the gospel.

Five hundred years after Martin Luther and his Ninety-Five Theses ushered in the Reformation, bestselling author and controversial bishop and teacher John Shelby Spong delivers twelve forward-thinking theses to spark a new reformation to reinvigorate Christianity and ensure its future. At the beginning of the sixteenth century, Christianity was in crisis—a state of conflict that gave birth to the Reformation in 1517. Enduring for more than 200 years, Luther's movement was then followed by a "revolutionary time of human knowledge." Yet these advances in our thinking had little impact on Christians' adherence to doctrine—which has led the faith to a

critical point once again. Bible scholar and Episcopal bishop John Shelby Spong contends that there is mounting pressure among Christians for a radically new kind of Christianity—a faith deeply connected to the human experience instead of outdated dogma. To keep Christianity vital, he urges modern Christians to update their faith in light of these advances in our knowledge, and to challenge the rigid and problematic Church teachings that emerged with the Reformation. There is a disconnect, he argues, between the language of traditional worship and the language of the twenty-first century. Bridging this divide requires us to rethink and reformulate our basic understanding of God. With its revolutionary resistance to the authority of the Church in the sixteenth century, Spong sees in Luther's movement a model for today's discontented Christians. In fact, the questions they raise resonate with those contemplated by our ancestors. Does the idea of God still have meaning? Can we still follow historic creeds with integrity? Are not such claims as an infallible Pope or an inerrant Bible ridiculous in today's world? In *Unbelievable*, Spong outlines twelve "theses" to help today's believers more deeply contemplate and reshape their faith. As an educator, clergyman, and writer who has devoted his life to his faith, Spong has enlightened Christians and challenged them to explore their beliefs in new and meaningful ways. In this, his final book, he continues that rigorous tradition, once again offering a revisionist approach that strengthens Christianity and secures its relevance for generations to come.
