This book earns its name! Over the course of 172 pages, I have taken all the great material in the first ed, and added to it a series of recipes and procedures which are very low profile and stunningly effective. This treasure trove of information features the Hardware Store Nitro recipe, fuel/air explosives, butt kicking ammonium nitrate formulations, nitromethane mixtures and a vastly improved detonator section. The fun doesn't stop there either. Read all about the construction of remote control cruise missiles and RC torpedoes. Claymore mines and air cannons add spice to the stew. Then top it off with my commentary on the easiest way to obtain all the materials one would need. I've read all the books on the topic of explosives, from tiny paperbacks to 600 page volumes written by PhDs. I have no hesitation saying I've topped them all!

Surpassing the standard set by the first edition, Healthcare Hazard Control and Safety Management, Second Edition presents expansive coverage for healthcare professionals serving in safety, occupational health, hazard materials management, quality improvement, and risk management positions. Comprehensive in scope, the book covers all major issues i

to an audience that was inspired by the music of the 1960s, 1970s, and 1980s. In the words of the author, “Philosophy is in this music and it is of this music and for this music.” The author is an accomplished professor of philosophy and also an accomplished musician, who plays in the folk rock group, Bone Dry River Band. Among the chapters included in this book “Frenzy” applies Plato and mystery religion to the Rolling Stones, “An Everlasting Kiss: The Seduction of Wendy” applies Vico to Bruce Springsteen, “Warm Impermanence” applies Danto and Andy Warhol to David Bowie, “Magic Pages and Mythic Plants” applies Cassirer to Led Zeppelin, “A Touch of Grey: Gratefully Dead?” applies Kant and Whitehead to the Grateful Dead, “Yesterday’s Tom Sawyers” applies Suzanne Langer to Rush, and “Dead Reckoning and Tacking the Winds of Fortune and Fate” applies Machiavelli to Jimmy Buffett.

The plight of religious minorities in the Middle East is often attributed to the failure of secularism to take root in the region. Religious Difference in a Secular Age challenges this assessment by examining four cornerstones of secularism—political and civil equality, minority rights, religious freedom, and the legal separation of

private and public domains. Drawing on her extensive fieldwork in Egypt with Coptic Orthodox Christians and Bahais—religious minorities in a predominantly Muslim country—Saba Mahmood shows how modern secular governance has exacerbated religious tensions and inequalities rather than reduced them. Tracing the historical career of secular legal concepts in the colonial and postcolonial Middle East, she explores how contradictions at the very heart of political secularism have aggravated and amplified existing forms of Islamic hierarchy, bringing minority relations in Egypt to a new historical impasse. Through a close examination of Egyptian court cases and constitutional debates about minority rights, conflicts around family law, and controversies over freedom of expression, Mahmood invites us to reflect on the entwined histories of secularism in the Middle East and Europe. A provocative work of scholarship, *Religious Difference in a Secular Age* challenges us to rethink the promise and limits of the secular ideal of religious equality.

The figure of Carmen has emerged as a cipher for the unfettered female artist. Dance historian and performance theorist Ninotchka Bennaum shows us Carmen as embodied historical archive, a figure through which we come to understand the promises and dangers of nomadic, transnational identity, and the immanence of performance as an expanded historical methodology. Bennaum traces the genealogy of the female Gypsy presence in her iconic operatic role from her genesis in the ancient Mediterranean world, her emergence as flamenco artist in

the architectural spaces of Islamic Spain, her persistent manifestation in Picasso, and her contemporary relevance on stage. This many-layered geography of the Gypsy dancer provides the book with its unique nonlinear form that opens new pathways to reading performance and writing history. Includes rare archival photographs of Gypsy artists.
