So a Nissan manual transmission is supposed to shift better on a GL-4 oil that is not also GL-5 rated. Nissan may have some other reason for the GL-4 requirement. I read somewhere that their service departments were recently required to put only Nissan (non-synthetic) 75w-85 GL-4 oil in manual transmissions of under warranty vehicles.

Nissan Altima Automatic Transmission Fluid | Advance Auto ...

Color: Healthy transmission fluid should be anywhere from clear red to light brown. If your fluid is dark brown, you should get your car in to get it changed. Black transmission fluid likely means there are issues with your transmission and you should get it serviced. Smell: Your fluid shouldn ' t give off too much of a smell. If you ' re detecting a burnt scent, this could be a sign that there ' s something wrong with your transmission.
