ARHEOLOGIA CRIMELOR REGIMULUI COMUNIST DIN ROMÂNIA (2006-2015)

Ukrainian Victims of Soviet Crimes Honoured by Memorial Organization

Despre moartea lui Ion Mihai Pacepa, cu istoricul Mădălin Hodor. Ce este cartea Orizonturi Rosii *Cum i-au convins americanii pe Iliescu și Năstase că Pacepa trăiește. Dezvăluiri pe EVZ Play*

On a historical global turning point, this book offers a thorough exploration of the “New Sustainability Paradigm”, originally developed by the Global Scenario Group (GSG) of the Stockholm Environmental Institute (SEI) as a starting point for analyzing real-life transitions and transformations. 11 contributors from 5 continents present detailed analyses of economic and political transitions in Western and Eastern Europe, the USA, the Middle East, and in Asia, discussing the role of different players in the implementation of the New Sustainability Paradigm. Part I offers an overview of the six scenarios developed by the GSG and a short discussion of significant papers published by the Great Transition Initiative (GTI) of the Tellus Institute. Next come examples of dramatic historical and current transitions in Western Europe, the USA, Eastern Europe, the Middle East (Arabian Spring), and Asia, as well as an analysis of the potential of humankind to manage a great transition to the new sustainability paradigm. Subsequent chapters highlight the role of culture and education and review the role of different players for the implementation of the new sustainability paradigm. The focus of Part II is on the ecological pillar of Sustainability. The discussion includes urgent ecological problems including climate engineering, eco-criminality, bioterrorism, biodiversity protection, water, energy, and food security. Part III deals with needed innovations in sustainable waste management and sustainable city architecture, especially big cities in developing and threshold countries, where a significant part of the world population is concentrated. The fourth and final section offers an analysis of insights developed throughout the book, and outlines recommendations for the implementation of the New Sustainability Paradigm by civil society, grass-root movements, scholars, politically neutral NGOs, sincere media players, and by open-minded and enlightened politicians to manage and steer the Great Transition towards sustainable global democracy.

Un volum dedicat integral comunismului romanesc din perioada lui Nicolae Ceausescu o analiza comparata de tip istoric si politic realizata de un specialist consacrat in istoria comunismului din Europa Centrala si de Est. Pe baza unei bibliografii vaste si a unor izvoare de o mare diversitate Adam Burakowski ne ofera nu doar o istorie a comunismului romanesc ci si o carte despre puterea absoluta al carei unic scop este consolidarea perpetua a puterii. „Cartea lui Adam Burakowski este o carte despre o dictatura si un dictator dar nu numai. Dictatura lui Nicolae Ceausescu ne ofera si o perspectiva de istorie politica alaturi de explicatiile necesare privind felul in care a functionat regimul ceausist folosindu-se frica manipularea si falsul nationalism. Fara indoiala cititorul acestei carti va fi rasplatit. Volumul are la baza surse bibliografice numeroase romanesti si straine ceea ce demonstreaza o abordare atenta – pentru ca pana la urma tema istoriei regimului ceausist este provocatoare dar si anevoioasa complicata prin capcanele pe care le poate intinde.” (Stejarel Olaru)

Cu o prefață a autorului la ediția românească Traducere de Wilhelm Tauwinkl, Mariana Piroteală, Elena Ciocoiu, Adina Cobuz, Emanoil Marcu și Vlad Russo „Da, am împușcat, împușcăm și vom continua să împușcăm cât va fi nevoie!” – Che Guevara la tribuna ONU în decembrie 1964 „În timpul bătăilor sau al electrocutărilor, țipatul este interzis.” – Regulamentul închisorii S-21 „Cadavrele au utilitatea lor, îngrașă pământul.” – Mao „Am bătut, batem și o să mai batem. Procurorul nu are nimic de spus. E treaba noastră.” – Stanisław Radkiewicz, ministrul polonez al securității publice „Din respect față de victime avem datoria de a nu uita ce a însemnat cu adevărat noaptea totalitară comunistă. Sacrificiul pe care l-au făcut acei oameni, de toate vârstele, de toate condițiile, de toate naționalitățile, depășește orice capacitate de înțelegere. Victimele sunt adevăratul chip al acelor regimuri care au purtat – ceva nemaivăzut în istoria omenirii – un război civil permanent împotriva propriilor popoare. Toți acei oameni au suferit aceeași soartă, dar fiecare și-a dus crucea singur și neștiut, și fiecare și-a murit moartea într-o singurătate fără sfârșit. Noi, omenirea întreagă, avem datoria morală de a le păstra memoria, indiferent dacă am cunoscut la rândul-ne regimurile fără de lege, dacă le-am fost complici, cu gândul sau cu fapta, sau dacă am închis ochii și nu ne-am lăsat atinși de tragedia care se desfășura în vecinătatea noastră. Victimele comunismului reprezintă conștiința noastră vinovată.” – THIERRY WOLTON „Parlamentul European reamintește că regimurile naziste și comuniste au comis genocid și crime în masă și au recurs la deportări, cauzând în secolul XX pierderi de vieși omenești și privări de libertate la o scară nemaivăzută în istoria omenirii; condamnă în termenii cei mai categorici actele de agresiune, crimele împotriva umanității și încălcările în masă ale drepturilor omului comise de regimurile totalitare nazist, comunist și de alte regimuri totalitare.” – Rezoluția Parlamentului European din 19 septembrie 2019 „O istorie mondială a comunismului e un pic prea anticomunistă... Cel de-al doilea volum, dedicat cortegiului de victime, redă cu mare acuitate crimele barbare, deși anumite pasaje sunt revoltătoare.” – L’Obs Carte recompensată cu Premiul Jan Michalski (Elveția, 2017) și Premiul Aujourd’hui (Franța, 2018)

A Communist spy chief reveals the unbridled and oppressive power wielded by the Party in Romania and other Eastern Bloc countries

The assassination of President Kennedy by Lee Harvey Oswald, the American Marine who had defected to the Soviet Union and four years later committed the crime of the century, was an extremely rare Cold War episode in which both sides were vitally interested in hiding the truth. In Programmed to Kill, former Lt. Gen. Ion Mihai Pacepa, the highest intelligence official ever to defect from the Soviet bloc, reveals most of the facts covered up by the Kremlin and addresses the myriad of questions left unanswered by the Warren Commission, the House Select Committee on Assassinations, and the numerous books written on this subject.

Former Director of Central Intelligence R. James Woolsey and former Romanian acting spy chief Lt. General Ion Mihai Pacepa, who was granted political asylum in the U.S. in 1978, describe why Russia remains an extremely dangerous force in the world, and they finally and definitively put to rest the question of who killed President Kennedy on November 22, 1963. All evidence points to the fact that the assassination—carried out by Lee Harvey Oswald—was ordered by Soviet Premier Nikita Khrushchev, acting through what was essentially the Russian leader’s personal army, the KGB (now known as the FSB). This evidence, which is codified as most things in foreign intelligence are, has never before been jointly decoded by a top U.S. foreign intelligence leader and a former Soviet Bloc spy chief familiar with KGB patterns and codes. Meanwhile, dozens of conspiracy theorists have written books about the JFK assassination during the past fifty-six years. Most of these theories blame America and were largely triggered by the KGB disinformation campaign implemented in the intense effort to remove Russia’s own fingerprints that blamed in turn Lyndon Johnson, the CIA, secretive groups of American oilmen, Howard Hughes, Fidel Castro, and the Mafia. Russian propaganda sowed hatred and contempt for the U.S. quite effectively, and its operations have morphed into many forms, including the recruitment of global terror groups and the backing of enemy nation-states. Yet it was the JFK assassination, with its explosive aftermath of false conspiracy theories, that set the model for blaming America first.

There is a considerable difference between real history and discourse history - this book stems from this idea. The author points out that history is constantly reconstructed, adapted and sometimes mythified from the perspective of the present day, of present states of mind and ideologies. Boia closely examines the process of historical culture and conscience in nineteenth and twentieth century Romania, particularly concentrating on the impact of the national ideology on history. Based upon his findings, the author identifies several key mythical configurations and analyses the manner in which Romanians have reconstituted their own highly ideologized history over the last two centuries. The strength of History and Myth in Romanian Consciousness lies in the author's ability to fully deconstruct the entire Romanian historiographic system and demonstrate the increasing acuteness of national problems in general, and in particular the exploitation of history to support national ideology.

Examines the part the chalice plays in Christ's Passion.

Asserts that there is a Russian-bred "science" of disinformation that is infecting the American psyche and body of knowledge.
