Analytical Dynamics presents a fair and balanced description of dynamics problems and formulations. From the classical methods to the newer techniques used in today's complex and multibody environments, this text shows how those approaches complement each other. The text begins by introducing the reader to the basic concepts in mechanics. These concepts are introduced at the particle mechanics level. The text then extends these concepts to systems of particles, rigid bodies (plane motion and 3D), and lightly flexible bodies. The cornerstone variational principles of mechanics are developed and they are applied to particles, rigid bodies, and deformable bodies. Through this approach, students are exposed to a natural flow of the concepts used in dynamics.

This book provides engineers with the tools to solve real-world heat transfer problems. It includes advanced topics not covered in other books on the subject. The examples are complex and timely problems that are inherently interesting. It integrates Maple, MATLAB, FEHT, and Engineering Equation Solver (EES) directly with the heat transfer material.

CD-ROM contains full text for all the procedures available in the manual. Files are provided both as fully formatted Word 6.0 (.doc) documents and as text-only documents (.txt).

It could be Axel Dean's motto. The sexy physician likes his women with sensual moxie, and Libby Preston definitely seems to fit that bill. There's that naughty grin. That hot bod. Her eager kisses and cheeky insults. Her. . . admitted virginity. Whoa. Okay, cue cold shower. Axel may not be an honorable man, but he has his limits. Except Libby won't take no for an answer. She's determined to have someone show her what she's been missing, and suddenly, Axel can't bear to think of Libby playing doctor with anyone else. . . USA Today Bestselling Author Erin McCarthy The Lady of the Lake Pro baseball player Dylan Diaz is pretty sure he's going to hell. When you rescue a drowning woman from a lake your first thought should be, "Are you okay?" not, "Can I make mad, passionate love to you?" But the minute sputtering kindergarten teacher Violet Caruthers is on Dylan's boat, that's all he can think about. Maybe it's the potent combo of a nun's personality inside a stripper's body. Maybe it's the way she drives him crazy with desire and laughter. Or maybe, Dylan's finally found what's been missing in his life, and he's not about to let go. . .

Katherine Shaw—Kate— is happy with her life. She has supportive friends, a glamorous magazine career, and a love of all things Jane Austen. But when she loses her job, her beloved grandmother falls ill and a financial disaster forces a sale on the family home, Kate finds herself facing a crisis that would test even the most stalwart of Austen heroines. Friends rally round, connecting her to freelance gigs, and presenting her with a birthday gift— title to land in Scotland—that's about to come in very handy. Turns out that Kate's first freelance assignment is to test an Austen-inspired theory: in the toughest economic times is a wealthy man the only must-have accessory? What begins as an article turns into an opportunity as Kate—now Lady Kate—jet-sets to Palm Beach, St Moritz and London where, in keeping company with the elite, she meets prospects who make Mr. Darcy look like an amateur. But will rubbing shoulders with men of good fortune ever actually lead her to love? And will Kate be able to choose between Mr. Rich and Mr. Right?
