Volume I is a basic textbook on the development of pipe organ composition in geographically diverse schools. Its nineteen chapters include charts of organ composers and a historical background of contemporary events and figures for each organ composition school. Volume II gives biographical sketches of organ composers and an alphabetical list of each composer's works (including pagination in the major organ music anthologies), publisher, catalog number, and copyright date. A directory of organ music publishers is also provided. --from publisher description.

A cumulative list of works represented by Library of Congress printed cards.
