Project Japan: Metabolism Talks... - OMA

-Rem Koolhaas / Hans Ulrich Obrist Between 2005 and 2011, architect Rem Koolhaas and curator Hans Ulrich Obrist interviewed the surviving members of Metabolism—the first non-Western avant-garde, launched in Tokyo in 1960, in the midst of Japan's postwar miracle. Project Japan features hundreds of never-before-seen images—master plans from Manchuria to Tokyo, intimate snapshots of the Metabolists at work and play, architectural models, magazine excerpts, and astonishing sci-fi urban visions ...

Project Japan: Metabolism Talks: Amazon.co.uk: Koolhaas ...

From the tabula rasa of a colonized Manchuria in the 1930s, a devastated Japan after the war, and the establishment of Metabolism at the 1960 World Design Conference in Tokyo to the rise of Kisho Kurokawa as the first celebrity architect, the apotheosis of Metabolism at Expo '70 in Osaka, and its expansion into the Middle East and Africa in the 1970s: The result is a vivid documentary of the last moment when architecture was a public rather than a private affair.

rem koolhaas project japan: metabolism talks

Metabolism was an architectural movement intended to create buildings that would evolve along with the world around them, housing capsules could be plugged in to apartment buildings then removed and replaced to respond to new needs, city landscapes would be in a constant flux, now it's a nostalgic throwback, the buildings that remain are pretty but functionless relics, the most famous, kisho kurakawa's nakagin capsule tower has never once been updated or reformed and is sinking into disrepair.

Project Japan: Metabolism Talks... by Rem Koolhaas, Hans ...

Between 2005 and 2011, architect Rem Koolhaas and curator Hans Ulrich Obrist interviewed the surviving members of Metabolism, together with dozens of their mentors, collaborators, rivals, critics, proteges, and families. The result is a vivid documentary of the last avant-garde movement and the last moment that architecture was a public rather than a private affair.

Project Japan : metabolism talks-- in SearchWorks catalog

By Rem Koolhaas and Hans Ulrich Obrist. Having wandered the ruins of Hiroshima, Tokyo and other Japanese cities after WW II, The Metabolists – four architects, a critic, an industrial designer and a graphic designer – showed with the launch of their manifesto Metabolism 1960 how they would employ biological systems (aided by Japan's massive advances in technology) as inspiration for buildings and cities that could change and adapt to the vicissitudes of modern life.
