Mythological Play Analysis: Antigone by Sophocles

This is the first study of Sophocles' Oedipus at Colonus which offers a lucid discussion of the main developments in the interpretative scholarship on the play, including among others an incisive analysis of its historical, social, mythical, intertextual, and performative contexts.

Sophocles' Electra is a riveting play with a long and varied reception. Its nuanced treatment of matricidal revenge with all the questions it raises; its compelling depictions of the idealistic, long-grieving, rebellious Electra; her compliant sister, her brother, and her mother; and its superb poetry have all contributed to making this one of Sophocles' most admired plays, as have the moral issues it raises and its political reverberations. In recent decades it has been repeatedly translated, adapted, and produced, sometimes on its own, sometimes in combination with selections from Aeschylus' Libation Bearers and (more often) Euripides' Electra. While the play certainly stands on its own in any language, reading it in the original Greek adds immense value. A commentary on the Greek text would enrich its reading by elucidating the words and world of the ancient language for those who are reading it more than twenty-five hundred years after the play was written. Such a commentary would also contribute to our understanding of other ancient Greek texts, not necessarily because they use the same words in the same way, but by providing information for contrast, comparison, and clarification. This commentary includes an introduction, text and notes, an abbreviations list, a stylistic & metrical terminology list, an appendix of recurrent words, and, a list of irregular verbs and their principal parts.

An essential companion for the student of literature. Works selected include the best-known works of the classical Greek and Roman theatre.

The original CliffsNotes study guides offer expert commentary on major themes, plots, characters, literary devices, and historical background. The latest generation of titles in this series also feature glossaries and visual elements that complement the classic, familiar format. CliffsNotes on The Oedipus Trilogy is your ticket to a greater understanding of three tragic dramas from Sophocles. Meet the subject of these plays: Oedipus, the banished king of Greek mythology who killed his father and married his mother. Oedipus The King, Oedipus at Colonus, and Antigone are timeless works that continue to captivate audiences even today. This study guide covers all three plays with critical commentaries, summaries, and character analyses—tools designed to open your eyes to the richness of Sophocles' work. Other features that help you study include Life and background of the playwright, Sophocles An introduction to Greek theatre A character map that graphically illustrates the relationships among the characters Critical essays on fate and ritual and transcendence in the Oedipus Trilogy A review section that tests your knowledge A Resource Center full of books, films, and Internet sites Classic literature or modern-day treasure—you'll understand it all with expert information and insight from CliffsNotes study guides.

Thus Burst Hippocrene: Studies in the Olympian Imagination is a collection of nine papers in comparative literature. Discussing the greatest Olympians in world literature, including Homer, Aeschylus, Sophocles, Euripides, Dante, Shakespeare, Milton, Li Bo, Du Fu, and the Bible authors, it is both daring in conception and wide-ranging in scope. Freely drawing on the author's knowledge of Classical Greek, Latin, Italian, French, German, Spanish, English, and Chinese as well as on his conversance with the literatures of these languages, the papers are truly comparative, making discoveries unique to the author's characteristic multi-lingual, multi-cultural approach. In going through the book, the reader will be pleasantly surprised by its originality, by its amazing depth and breadth, and by the new light it sheds on topics that are of interest to scholars and students of comparative literature. Written in lucid language with no pretentious jargon, it will also appeal to the general reader who picks up a book simply for the joy of reading or for horizon-broadening without tears.

The ability of human beings to feel compassion or empathy for one another—and express that emotion by offering comfort or assistance—is an important antidote to violence and aggression. In ancient Greece, the epics of Homer and the tragic dramas performed each spring in the Theater of Dionysus offered citizens valuable lessons concerning the necessity and proper application of compassionate action. This book is the first full-length examination of compassion (eleos or oiktos in Greek) as a dramatic theme in ancient Greek literature. Through careful textual analysis, James F. Johnson surveys the treatment of compassion in the epics of Homer, especially the Iliad, and in the works of the three great Athenian tragedians: Aischylos, Euripides, and Sophokles. He emphasizes reciprocity, reverence, and retribution as defining features of Greek compassion during the Homeric and Archaic periods. In framing his analysis, Johnson distinguishes compassion from pity. Whereas in English the word "pity" suggests an attitude of superiority toward the sufferer, the word "compassion" has a more positive connotation and implies equality in status between subject and object. Although scholars have conventionally translated eleos and oiktos as "pity," Johnson argues that our modern-day notion of compassion comes closest to encompassing the meaning of those two Greek words. Beginning with Homer, eleos normally denotes an emotion that entails action of some sort, whereas oiktos usually refers to the emotion itself. Johnson also draws associations between compassion and the concepts of fear and pity, which Aristotle famously attributed to tragedy. Because the Athenian plays are tragedies, they mainly show the disastrous consequences of a world where compassion falls short. At the same time, they offer glimpses into a world where compassion can generate a more beneficial—and therefore more hopeful—outcome. Their message resonates with today's readers as much as it did for fifth-century Athenians.

A Companion to Sophocles presents the first comprehensive collection of essays in decades to address all aspects of the life, works, and critical reception of Sophocles. First collection of its kind to provide introductory essays to the fragments of his lost plays and to the remaining fragments of one satyr-play, the Ichneutae, in addition to each of his extant tragedies Features new essays on Sophoclean drama that go well beyond the current state of scholarship on Sophocles Presents readings that historicize Sophocles in relation to the social, cultural, and intellectual world of fifth century Athens Seeks to place later interpretations and adaptations of Sophocles in their historical context Includes essays dedicated to issues of gender and sexuality; significant moments in the history of interpreting Sophocles; and reception of Sophocles by both ancient and modern playwrights
