Maria L. Rizzo, Statistical Computing with R, Chapman & Hall/CRC, 2008

Dalgaard presents a very nice introduction to R statistical programming and guides you through various examples for some of the ubiquitous (and not so ubiquitous) statistical modeling tasks, all while using R as the main tool. Meanwhile, Rizzo emphasizes using R for the statistical computing techniques in particular,

Computational statistics and statistical computing are two areas that employ computational, graphical, and numerical approaches to solve statistical problems, making the versatile R language an ideal computing environment for these fields. One of the first books on these topics to feature R, *Statistical Computing with R* covers the traditional core material of computational statistics, with an emphasis on using the R language via an examples-based approach.
