Majina ya Walimu, Shule Zilizoshiriki Kuvujisha Mitihani ya Darasa la 7 Yaanikwa

Discusses the various types of emotion, how they can change, and how to react to unwanted feelings, and suggests related activities.

In celebration of cooperatives' contributions to community development processes and outcomes worldwide, the United Nations designated 2012 as the Year of the Cooperative. Today, as in the past, cooperatives have proved effective in bringing people and organizations together to accomplish a broad array of goals related to fostering social and economic innovation, protecting communities against poor living and working conditions, and promoting a better quality of life. Analytically, as both a movement and as a business model, cooperatives hold much potential for generating the types of synergies, collaboration, and productive and social processes that enable community development to thrive in a variety of local, regional and global contexts. This collection of articles chronicles new developments in the ways in which cooperatives are used in a diverse array of community contexts. They offer insight as to what these changes mean, both empirically and theoretically, for community development in the decades to come. This book is a compilation of articles published in the journal Community Development.

Explores what it is like to be a woman, a person of color, an immigrant, and a headscarf-wearing Muslim in a non-Muslim country.

Frank Gambale's new improvisation book is a twelve-chapter course, with seven lessons per chapter, that covers the twelve most important scales and modes. Each lesson explores the chords, voicings and licks that are derived from each scale. The two enclosed CDs contain 119 recorded music examples (over 50 CD tracks), and the clearly presented text is written in standard notation and tablature.

Principles of Physics is a well-established popular textbook which has been completely revised and updated.

Covering the whole of the island of Borneo, this fully revised and updated edition is indispensable for anyone interested in the avifauna of this diverse region. With authoritative text and packed with sumptuous colour plates, Birds of Borneo is the definitive guide to the island's birdlife. This new edition features an extensive introduction providing information on geography, climate and habitat. The accurate text covers the identification, voice and status of all species and distinctive subspecies of the island, which is accompanied by detailed distribution maps as well as 144 colour plates covering all major races and plumage variations.

This is a revised edition of Modern World History, which has been revised to meet all the core requirements of OCR's 2003 Modern World History specification.
