The book gives a detailed explanation on Algebra, Trigonometry, Geometry, Differential calculus, Integral calculus, Differential equations and Laplace transforms in 8 units and 29 chapters.

A successful American surgeon gives away everything he owns and moves to Russia to keep a promise he made to God when he was fourteen. . . and finds unexpected joy. Doctor Bill Becknell moved to Russia and, despite not speaking the language, began providing medical care to people in the villages above the Arctic Circle. He traveled by truck, snowmobile, reindeer sleigh, and helicopter to reach people who had never seen a doctor or heard about Jesus—people who told him that they've been waiting all their lives for someone to explain who created the stars in the night sky. Every trip he made was an adventure. Despite

extreme hardships, brokenness, sacrifices, and even near-death experiences along the road, Bill discovered that God has an unfailing love that is beyond comprehension. This is the true story of one man's journey to confront and understand the suffering, pain, confusion, and despair that challenge our lives. Sorrow is a part of living, but how we handle the tragedy in our lives makes all the difference. This book was written to encourage us not to be afraid to step into the unknown abyss of faith. "This book about battles of faith . . . will be an encouragement to everyone who reads it."

A chilling memoir by the man who flew the Führer. A decorated First World War pilot, Hans Baur was one of the leading commercial aviators of the 1920s before being pitched into the thick of it as personal pilot to a certain “Herr Hitler.” Hitler, who loathed flying, felt safe with Baur and would allow no one else to pilot him. As a result, an intimate relationship developed between the two men and it is this which gives these memoirs special significance. Hitler relaxed in Baur’s company and talked freely of his plans and of his real opinions about his friends and allies. Baur was also present during some of the most salient moments of the Third Reich; the Röhm Putsch, the advent of Eva Braun, Ribbentrop’s journey to Moscow, the Bürgerbräukeller attempt on Hitler’s life; and, when war came, he flew Hitler

from front to front. He remained in Hitler's service right up to the final days in the Führerbunker. In a powerful account of Hitler's last hours, Baur describes his final discussions with Hitler before his suicide; and his last meeting with Magda Goebbels in the tortuous moments before she killed her children. Remarkably, throughout it all, Baur's loyalty to the Führer never wavered. His memoirs capture these events in all their fascinating and disturbing detail.
