Reviewed in the United States on April 15, 2007. This book is a very short (60-page) overview of tube guitar amps written more than two decades ago in 1983. The 1987 version contributes some really appalling editing that deleted many pictures and diagrams, but not the references to them in the text, and failed to correct the numerous factual, mathematical and spelling errors throughout this pamphlet.

~~Books by Dave Hunter (Author of The Guitar Amp Handbook)~~

"The Guitar Amp Handbook by Dave Hunter (who has written many a book on guitars) covers everything you need to know about the sought after tube amplifier. There is a very heavy warning on page seven about the danger of opening up an amplifier so I read this book for interest only, rather than intending to get a screwdriver out.
