The Domestication Of Language Cultural

The Domestication of Language: Cultural Evolution and the Uniqueness of the Human Animal. by Daniel Cloud. liked it 3.00 · Rating details · 8 ratings · 2 reviews. Language did not evolve only in the distant past. Our shared understanding of the meanings of words is ever-changing, and we make conscious, rational decisions about which words to use and what to mean by them every day.

The Domestication of Language: Cultural Evolution and the ...

The Domestication of Language brings an important new perspective to an extraordinarily difficult and important topic: the evolution of language. Language is the result of intelligence: an invented social and communicative technology, invented not by a Promethean genius, but multi-generationally by us all as we respond to and experiment in our specific situations.

The Domestication of Language: Cultural Evolution and the ...

The domestication of plants and animals was a major cultural innovation ranked in importance with the conquest of fire, the manufacturing of tools, and the development of verbal language. Charles Darwin bindi recognized the small number of traits that made domestic species different from their wild ancestors.

Domestication - Wikipedia

Domestication of the English Language in the environments where it is used as Second Language (L2) of Foreign Language (EFL) is no more a bizarre phenomenon, but a welcome development because the language has today, emerged as a global one, therefore no longer an exclusive preserve of the British or its ancestral home.
