So, whether there was an accident in the last year, for customers of All American Auto Insurance. Complete the following two-way table of column relative frequencies.

Two-way relative frequency tables (video) | Khan Academy

Two-way frequency tables are a visual representation of the possible relationships between two sets of categorical data. The categories are labeled at the top and the left side of the table, with the frequency (count) information appearing in the four (or more) interior cells of the table. The "totals" of each row appear at the right, and the "totals" of each column appear at the bottom.

Two-Way Frequency Tables - MathBitsNotebook(A1 - CCSS Math)

A two-way frequency table is a table that displays the frequencies (or " counts ") for two categorical variables. For example, the following two-way table shows the results of a survey that asked 100 people which sport they liked best: baseball, basketball, or football.
