A user guide, also commonly called a technical communication document or manual, is intended to give assistance to people using a particular system. It is usually written by a technical writer, although user guides are written by programmers, product or project managers, or other technical staff, particularly in smaller companies. User guides are most commonly associated with electronic goods, computer hardware and software, although they can be written for any product. Most user guides contain

A user manual is a formal writing piece with a specific structure, and should be written by someone who is intimately familiar with the product such as a technical writer or the product designer. Writing an effective user manual requires knowing who is going to be using the product, then writing it with these users in mind.
