The innovation economy sets new standards for global business and requires efficient innovation management to plan, execute and evaluate innovation activities, establish innovative capability and coordinate resources and capacities for innovation on an intra- and inter-organizational level. Moreover, communication of innovation is one essential impact factor of innovation success due to successful launches of innovations into markets, establishment of stakeholder relationships, and strengthened corporate reputation in the long-run. Consequently, the portfolio of communication activities for innovations has to be mastered by a company or collaborative network equal to the innovation portfolio. Thus, management of innovation and innovation communication on a strategic level play an important role in business nowadays. This new book concentrates on new approaches and methods for strategies and communications for innovations. As one part of the book, integrated perspectives on strategy and communication for innovation intend to bridge the gap between innovation management and communication management. This new book shall contribute to management science and answer current question in business. It provides cutting-edge information and offers a knowledge source for researchers, students, and business representatives who design, implement and manage innovation and innovation communication / marketing of innovation.

Ziel dieses Standardwerkes ist es, die betriebliche Personalarbeit auf der Basis wissenschaftlicher Erkenntnisse in einer modernen und praxisbezogenen Form darzustellen. Dazu wird zunächst das erforderliche Grundlagenwissen vermittelt, um dann Möglichkeiten zur praktischen Umsetzung dieser Erkenntnisse aufzuzeigen. Thematisch umfasst das Buch neben den Grundlagen der Personalwirtschaft die personelle Leistungsbereitstellung, den Leistungserhalt und die Leistungsförderung sowie die Informationssysteme der Personalwirtschaft. Neuere Aspekte der Personalarbeit werden ebenso aufgezeigt wie moderne Ansätze für die Zukunft der Personalwirtschaft. Dabei steht die kritische Auseinandersetzung bezüglich der Einsetzbarkeit und der Vor- und Nachteile neuerer Instrumente der Personalwirtschaft im Vordergrund. Nach den einzelnen Abschnitten werden Fragen zur Kontrolle und Vertiefung angeboten. Die vorliegende 10. Auflage wurde überarbeitet und auf den neuesten Stand gebracht. Aktuelle Themenbereiche sind z.B. Industrie 4.0, Wertewandel oder die Vergütung von Vorstand und Aufsichtsrat. Das Buch ist eng mit dem dazugehörigen Arbeits- und Übungsbuch verzahnt, sodass auch ein Selbststudium problemlos möglich ist.

Durch eine Typologie, die von den drei grundsätzlichen Internationalisierungsmotiven Ressourcen-, Markt- und Technologieorientierung ausgeht, gibt der Autor konkrete, empirisch fundierte Gestaltungsempfehlungen.

One of the great challenges in flexible production and supply chains is the availability of necessary information at any time and place. Autonomous logistics processes can bring about fast and flexible adaptations to change. This book identifies autonomous logistics processes and details how they differ from conventionally managed processes. Coverage also describes the changes that autonomy will cause in order processing.

New ideas for new products are not enough for creating successful markets: Product Innovation means to manage the whole chain from invention to new and best selling products in market. This innovation roadmap has to be carefully and systematically planned and procured. There are a lot of methods for creativity, market analysis, evaluation, technology forecast, and decision gates available within this book. These methods and tools are brought together and their scopes of application as well as their limitations are shown. The whole tool kit of methods and decision models like market studies, value engineering, TRIZ or portfolio analysis and others are linked together to

the overall Aachen Innovation Model (AIM). This handbook is to be used as an innovation management guide as well as an information source for nearly all methods and tools in the field of innovation for technical products. The complete Innovation Road Map is supported by an interactive, multiple user software tool "EDEN" on an ontology basis. Thus the user has not only access to the collected know how of the past, but can also contribute to growth of expertise within his or her enterprise.

Dieses Handbuch gibt einen umfassenden Überblick über den aktuellen Stand der lernenden Organisation. Wissenschaftler und erfahrene Praktiker stellen alternative Wege zu einer Lernstrategie vor und vermitteln Erkenntnisse aus namhaften Unternehmen, darunter AEG, Hypo-Bank, Lufthansa, Mercedes-Benz und Opel.

The innovation economy sets new standards for global business and requires efficient innovation management to plan, execute and evaluate innovation activities, establish innovation capability and coordinate resources and capacities for innovation on an intra- and inter-organizational level. Communication has become a critical factor underpinning successful innovation. As a new communication field, innovation communication facilitates the successful launches of new products and services, the establishment of stakeholder relationships, and the strengthening of corporate reputation in the long-run. Consequently, firms today need to develop a strong portfolio of communication tools as an integral part of their strategic innovation management activities. This new edition mainly concentrates on emerging approaches and methods for integrating communication as part of strategic innovation management. A key theme is the provision of an integrated perspective to bridge the gap between innovation management and communication management at both strategic and operational levels. This book makes an important contribution to this evolving academic domain by providing multiple perspectives on the latest research on innovation communication and strategic open innovation. It also provides guidance for managers seeking to understand the diverse ways by which they can leverage communication to support successful innovation.

Sustainable solutions require the integration of social and ecological aspects in every planning and decision-making process. This book explains the most important principles and elements of Systems Engineering and three planning cases demonstrate the practical application. It provides an understandable guide with questions and recommendations, and offers a clear structure of the problem solving process.

Psychological requirement analyses with their requirement and qualification profiles show what will be important at work in the future! Both the selection of applicants and the training of personnel, as was the case, for example, in view of new strategic challenges in the financing business of a bank, should benefit from this information, which is to be collected in advance by means of a mix of methods, e.g., questionnaires and "expert interviews" on site. Selected key personnel figures from operational HR work should be used to check whether the current HR strategy is "still on track". This Springer essential is a translation of the original German 1st edition essentials, *Psychologische Anforderungsanalysen in Theorie und Praxis* by Heribert Wienkamp, published by Springer Fachmedien Wiesbaden GmbH, part of Springer Nature in 2020. The translation was done with the help of artificial intelligence (machine translation by the service DeepL.com). A subsequent human revision was done primarily in terms of content, so that the book will read stylistically differently from a conventional translation. Springer Nature works continuously to further the development of tools for the production of books and on the related technologies to support the authors.
